From (Name) Dr. B. Sundara Raj, M.A., Ph.D.,

(Designation) Director of Fisheries, Madras.

To The Secretary to the Government of Madras,

Through The Accountant-General, Madras. Development Department.

Sir,

I have the honour to submit proposals for taking over from private management the Udayawar school at Udipi, South Kanara. The school is now under one Mr. L. Fernando. The majority of the students attending the school are fisher children. Mr. Fernando has ~~applied~~ sent a petition requesting me to take over the management of the school as he is unable either to meet the growing pecuniary and other demands of the schools or to provide a suitable building and furniture. Mr. J.A. Saldhana, M.L.C. who paid a visit to the school also strongly recommends the proposal -his report is enclosed.

As the matter is one which calls for urgent action in the interests of the Fisher children attending the school, I request that you will be good enough to obtain early orders of Government permitting me to take over the management of the school by 1st October 1927.

2. The expenditure in the current year will be as follows:-

Recurring charges.

Pay of teacher on Rs.20/- for 5 months from 1st October. ...	Rs.	100--0--0
Rent for 5 months at Rs.3 per mensem.	"	15--0--0
Sweeping charges at annas 8 per month for 5 months. ...	"	2--0--0
		117--0--0

Non recurring charges.

Furniture, books, registers, bill and timepieces.		115--4--0
Total	Rs.	232-12--0 or Rs.233. in round figures.

I request that that I may be allowed to meet this expenditure from savings available under VIII Schools for Fishermen 'Pay of Establishment and Non Contract Contingencies, consequent on the closure of the Velliyal Night School for which a provision of Rs.360 was included in the current years budget.

3. The strength of the school is expected to increas and for efficient teching an additional teacher will be necessa when the school re-opens after the mid-summer vacation. The Assistant Director (Coast), therefore, proposes the appointment of an additional teacher for 9 months during next year if Government sanction the taking over of the school. I agree wit the Assistant Director (Coast) and recommend the suggestion for the

the favourable consideration of Government.

I have the honour to be,

Sir,

Your most obedient servant,

B. Sundara Raj

I have been to Udiavar on my M.L.C. touring. In it I find to my pleasure a school opened for the fisher people by a gentleman Mr. Ligoury Fernandes (S.S.L.C) who with his father is a large employer of that community in fishing operations with a large Maribale net and fish curing yard and fish oil extractor etc. The school is held in the office building of the tile factory belonging to the leading cornalios family of Udiavar - now closed and if largely patronised - as it is sure to be can be shifted to a bigger unused building which Mr. Cornalios is prepared to place at the disposal of the school manager. There is no ~~other~~ school of any kind within a radius of one and half miles and the nearest fisher children's school is about four miles away. Mr. Fernandes belongs to an old highly respectable family who have been in terms of close intimacy with fishermen, whom they have largely employed in their service. He is a very capable young man with about a year's experiance as assistant headmaster in the higher elementary school in Karkal and is a very zealous teacher, keenly eager to improve the educational and economic condition of the fisher community, which has rendered his family services for many years. He is very popular among them, and his school is welcomed with great rejoice by them. None of the children in his school have ever attended any other school. Confining the school only ~~with~~ to fisher class. Within a radius of one mile be in centres with all about a hundred pupils in it from among them who would never attend another school. The school thus meets a long felt need of the locality and is sure to be ~~xxx~~ popular, under a capable management. I may therefore without any hesitation strongly recommend Mr. Fernandes's school for due recognetion by the Fisheries Department and hope that it will be soon be taken over under its managements with Mr. Fernandes as its permanent headmaster as a special concession for his noble enterprise in the interests of the local fisher community.

Subject: Education - Udayawar School - taking over management.

C.No.2998 II. From the Director of Fisheries, Ref. No.1189 C/27-3, dated ~~1999927~~.; 9-9-27

To Asst: Secretary.

Please see the proposals of the Director of Fisheries in the c.f. He proposes the taking ~~of~~ by the Dept. of over the management of the Udayawar School at Udip South Kanara with effect from 1st October 1927. The school is at present managed by one Mr. Fernando, who has requested the Director to take over the management of the school as he is unable to meet the growing pecuniary and other demands of the school or to provide a suitable building and furniture. Mr. Saldanha, M.L.C. who paid a visit to the school strongly supports the proposal. Please see his note at page 4 c.f. In view of the urgency of the matter the Director requests that the school may be taken over by the Fisheries Dept. with effect from 1st October and states that the expenses in the current year, which he estimates at Rs.233, may be met from the savings available under VIII schools for fishmermen - pay of establishment and non-contract contingencies - consequent on the closure of the Velliyal night school, for which a provision of Rs.360 was included in the current year's budget.

2. The ~~gx~~ general question of the future control of fisheries schools is still under consideration. It has been decided by H.M. that ~~they are to be~~ new ~~comparatively less urgency of~~ proposals ~~take these~~ new ~~this their consideration may~~ be postponed for the present. For orders whether the D.F.S ~~may accept~~ proposal

-2- 7

~~Mr Carnegie's reply and the papers may be forwarded for the present pending decision on the question~~ in this case may be accepted and the School taken over on 1.4.28; the Scheme 11.10.27 may be treated as a Part II Scheme.

To Secy.

The Director does not appear to have considered the possibility of having the School under the management and financial aid in support of the School. Probably the Manager is not anxious to continue the School. In view of the fact that the nearest existing School is four miles away from the village and that a hundred pupils are likely to attend the School if properly managed, I submit that the School be taken over by the Deptt of Education.

The proposal here is similar to that regarding the Th. Bd. school in G.O. 1668/27, which was rejected when circulated to Hons Ms. Mr. & Fin. The principle adopted by Hon. Mr. Row in (E) was that the Fisheries Dept. should not take over such schools. If Dev. wish to support this proposal in conflict with that principle, Hon'ble Ministers, please.

2. It is submitted that this case is not similar to that dealt with in G.O.No.1668 Dev. dated 15-10-27. In the case of the elementary school which the Fisheries department proposed to take from the Kasaragod taluk Board, the Board was ready to retain the school under its own management in case the Fisheries Dept. was not willing to take it over and run it. The Fisheries Dept. wanted to take it over because the fisher children (about 47 out of a total strength of 61) did not receive, under the management of the board, the type of education designed to prepare them for their profession. By taking over, the Dept. wanted to provide for the children the type of education they

needed. In the present case, (the Udayavar school) the school is at present run well by an efficient private teacher who takes special interest in the improvement of the economic and educational condition of the fishermen community. The majority of the children are fisherfolk and the strength of the school is rising. But the teacher is unable to run it on account of financial and other difficulties and has asked the Director to take it over. In Failure to take this school over will perhaps result in the closure of the school in a locality where it is badly needed. So, it is submitted that there is different between the two cases. ~~Perhaps Finance Department may be requested to consider the circumstances explained~~ The file may now be submitted to H.Ms.M-3, M, and C-4.

25/10/57 The D.F.O who was asked to give his views on the question whether the Fisheries Dept should continue to be responsible for the elementary education of the fisher children has replied to the effect that the Dept can equally look after & effectively meet the needs of education of this community. The file containing his views is sent herewith. If the education of fisher children is going to be taken off the hands of the Fisheries Dept, the question of ~~of~~ taking over this School may be dropped.

A | The question relating more to the school (which is a private one) is not similar to that of the school at Kasaragod, which is referred to in the Finance Dept. Ending the Memorandum of the Financial question and may be called (i.e. the Educational Dept. managing all schools now run by Labour & Fisheries Department), I would certainly take over the school & continue its work, on the lines of the Fisheries Dept schools.

His Excellency has asked me to look into this file. The question in issue is not at present that of the policy under which the Fisheries Department controls the elementary education of a particular section of the community. That for the present is to go on. The only point therefore is whether this case conflicts with the decision in G.O. No. 1668, Development, dated 15th October 1927. That was a proposal to convert an existing Taluk Board School which served general purposes into a special school for fisher children. That seemed to me a retrograde step. In the present case we have a school which is run specially by private agency for fisher children and the Department proposes to take it over. If my Hon'ble Colleague M-3 thinks there is sufficient justification on the facts of the case for that and that otherwise the school will disappear I have nothing further to say.

With reference to the note of the Hon'ble C_4 on page 13 ante, the Development Department enquire whether the scheme may be included in the list of Part II schemes for 1928-29. The Part II schemes for 1928-29 have already been considered by the Finance Committee and their recommendations obtained. It is now too late to consider it as a Part II scheme for next year. The only courses open are:--

Page 13 ante

(1) to move a demand for a further grant for this scheme in March 1928, or

(2) to introduce this scheme in 1928-29 by a supplementary grant.

There is a school at Udayawar in the Udipi taluk of the South Kanara district under a private manager. The majority of the students attending it are fisher children. The teacher-manager has asked the Fisheries Department to take over the management of the school as he is unable either to meet the growing pecuniary and other demands of the school or to provide a suitable building and furniture. Unless the department takes over the school, it is likely that the interests of the fisher children will suffer as the management cannot continue it for long. The Director of Fisheries has therefore asked that the school should be taken over by him immediately. The nearest existing school is four miles away from the village and it is reported that a hundred pupils are likely to attend the school if properly managed. It is therefore proposed to accept the Director's recommendation and take over the school from the 1st April 1928.

A definite decision on the question of taking over this school under the Fisheries Department was reached by the Government only after the Part II schemes for 1928-29 had been considered by the Finance Committee. It is therefore proposed to move a demand for a further grant of Rs. 400 in the March meeting of the Legislative Council.

G.O. Note No.6644 (B.G)-1 dated 24th February 1928.

Subject:-Taking over under Government management of the Elementary School at Nayanna village for fisher children.

The Development Department have brought forward the above scheme as a Further Demand for 1928-29. The amount involved is small, the ultimate liability being Rs. 500 and expenditure in 1928-29 Rs. 400 only. Further, the scheme is merely an extension of an existing policy and does not constitute a new service. It seems unnecessary to move a further demand for this small amount. It will suffice if the scheme is placed before the Finance Committee as a sch for introduction in 1928-29 and if approved by the Finance Committee and Cabinet, it may be sanctioned, the cost dur: 1928-29 being met by reappropriation.

Development Department is requested to take action accordingly.

Schemes.	Remarks.
Demand for further grants for 1928-29.	
1. Training of veterinary officers.	The Committee considered that these schemes might lie over until the Committee had time to give them fuller consideration.
2. Additional grant to the Madras Children's Aid Society.	
3. Remuneration to the Dt.Labour Officer, Malabar.	The Committee wished to have details of the work on which the Dt.Labour Officer is engaged.

2. The acceptance of the following schemes by the Finance Committee is subject to the remarks noted against them:--

SCHEMES.	Remarks.
Scheme for introduction during 1928-29.	
1. Appointment of an Assistant Manager for the Criminal Tribes Settlement.	The Committee considered that the Assistant Manager should be an experienced agriculturist.
Other schemes.	
2. Construction of a new Headquarter Hospital at Madura.	The Committee hoped that the revised estimate placed before it wasea final one.
Demand for further grant for 1928-29.	
Construction of a natural science block for the Presidency College, Madras.	The Committee desired to have full information as to the future liabilities which are likely to be incurred on these scientific objects. They regarded with some anxiety the large expenditure to which they are giving rise.
